

FENLO
SKINCARE

FENLO

SKINCARE

FENLO is the brand new cosmetic line that was introduced at the end of 2022 by its founder and creator Melodi Karabağ Aslan.

The FENLO brand is named after a street which is one of the favorite locations of its creator, Melodi Karabağ Aslan. The name is derived from the pronunciation of Venloer Straße in Germany. As a matter of fact; this street has many features that will fascinate everyone who steps in at once. Venloer Straße stands out as one of the longest main roads running from Cologne to the beautiful town of Venlo on the Dutch border.

In the early 1900s, the pharmacies lined up along this magnificent road, whose story dates back to the Roman period, identified the street with the concept of health. On the other hand, Melissa gardens, on both sides of Venloer Straße, that greet passers-by with its fragrant scent, appear for the first time in the records of these years and today inspire FENLO's one of the first two products, a moisturizing cream. FENLO begins its journey where it will offer healthy beauty for you.

In the projection of the near future, FENLO, which has already completed the planning of many products to be added to its product range and has already started the R&D / P&D studies of these products, is a greeting to the skin care sector and to meet with a wide audience and quickly reveal its difference for every skin type and skin condition.

FENLO's Promise:

- To inspire.
- To offer unique contents. To the perfect beauty appearance depending on the glow of health reflected from your skin.
- Thanks to FENLO, your life energy will rise and FENLO will also help you reflect your rising energy .
- Inspired by nature to make your body healthier and your skin more beautiful, FENLO will take you under its positive influence and your ongoing glow will be a light to your surroundings.
